Limbe, Haiti

The thriving corps in Limbe has been praying and planning for their own corps building for over 9 years. Soon they will have their own space to safely and comfortable worship God and serve their community.

Turks & Caicos

The corps at T&C has been using rented office space, which is no longer available to them. They look forward to having their own church home. They have even committed to raising about 15% of the cost for building their new home from within their own local community in order to make this happen.
