Kimilili, Kenya West

This corps needs to relocate because their building needs to be renovated as part of their divisional headquarters. This will allow them to have a corps hall and officer's quarters on their own land and will allow their district to become a full fledged division.

Lubao, Kenya West

The current building for the Lubao Corps is unsafe. The corps members began building a new building themselves a few years ago, but were unable to finish due to financial constraints. The 20 New Corps funds will allow them to finish building a new hall and officer's quarters to replace the unsafe ones they have been using all these years.
